

January 20, 1976

get his educational benefit, then he would get transportation, but if he could get his education in the same school that he ordinarily goes to, he would not be entitled to transportation.

SENATOR MURPHY: Thank you.

PRESIDENT: Senator Clark.

SENATOR CLARK: Mr. President and members of the body, now, I imagine that Senator Goodrich has a better opinion of the Budget Committee than I have. I mean if he says it is just going to be up to the Budget Committee, the bill says you are going to pay it. Now whenever he says that and the Budget Committee says we will put \$200,000 in, I know what will happen on the floor. They will say it is mandated. You are going to have to pay it. So you are talking about \$518,000. I don't know what obligation we have to all these people. I think we are putting in a tremendous amount of money at the present time. I think, perhaps, the parents have an obligation, also, to get their child to where this education is and we are providing the education and it is costing a lot more money than normal education. I realize his position, and his position as far as the Omaha place of concern. I was glad to see that someone from Omaha put the kill motion in. I certainly wouldn't do it because the problem perhaps is there. But the Budget Committee, itself, is going to have to put the amount of money in that is demanded in the bill. It says you have to pay the transportation cost so certainly I support the kill motion on this. I just don't think that this is the type of legislation that we need at a time when supposedly we are in an austerity program. This was set by the Governor, I think, in December when he said we had a short fall of money. I agree with him that people do not want to spend more money at the present time. They would like to have a little more money left when they go to the grocery store and come back and I don't think that this half million dollars should be spent for this purpose. Thank you.

PRESIDENT: Senator Barnett.

SENATOR BARNETT: Mr. President, I think Senator Clark just answered the question, that the Budget Committee, as Senator Goodrich has said, will have to take the bill anyway and they will have to appropriate the money. I think we should all support Senator Skarda's motion on this bill to kill it and let the Appropriation Committee take it and Senator Goodrich make his proposal there because he is on the Appropriation Committee, too.

PRESIDENT: Senator Koch.

SENATOR KOCH: Mr. President, members of the body, at this time I rise to oppose the kill motion. This does not mean that I necessarily favor the bill in the present form, and the reason that I am stating this position is that there are several bills that deal with handicapped that we
